

SMART ACCESS SOLUTIONS FOR

Hospitality

Enhance your guest experience with Salto, the global leader in hospitality access control. Our wire-free, smart keyless security gives you ultimate control and blends seamlessly with your hotel design and style.

SALTO WECOSYSTEM

Empowering smarter access

The SALTO WECOSYSTEM is more than a group of companies and individuals. We're a community born out of a common goal: empowering access, in every sense - access to places, experiences and opportunities.

Our expert global teams collaborate closely, driven by a dynamic spirit and a shared passion that mean every part of our WECOSYSTEM is fully connected.

Each of our companies embrace the latest technologies and prioritises the open exchange of ideas to unlock new ways of working - So we can keep pushing, keep innovating and keep delivering solutions that enable people to access more together.

We believe that our industry still has a long way to go, and we want to have an active role in the exciting journey ahead.

About Salto

Pioneering facility access, identity management and electronic locking technology that ensures seamless, reliable and secure experiences.

About Salto

Who we are

Salto is a leading global access solutions provider, part of the SALTO WECOSYSTEM.

We develop pioneering facility access, identity management and electronic locking technology that ensures seamless, reliable and secure experiences.

Through close customer relationships and innovative solutions, our global team of experts create timeless and meaningful products that positively impact people and planet

Welcome to the next level of guest connectivity

Salto empowers property owners and managers worldwide with new ways to secure guests, manage staff, and protect assets through unmatched advanced technology.

Combining easy-access, digital keys and smart guestrooms, with unified property management systems and design smart locks that protect individuals and assets is a unique challenge for every hospitality business — from luxury to midscale hotels,

independent to large chains, and cruise ships to convention and conference centres.

Salto has developed advanced and aesthetically designed hospitality-specific electronic access control solutions that set a new standard in the industry, — from back-of-house organization to guestroom management — with one easy-to-use system for hotels of all types and sizes.

Commitment to quality and information security

Regulatory compliance is essential in building trust and confidence in the effectiveness of our products. Our in-house testing ensures each and every product we sell surpasses the legal standards set by official regulatory bodies.

ISO 9001

These important certifications validate the quality of our products.

ISO 14001

Ensuring consistent building quality and that environmental norms are met.

ISO 27001

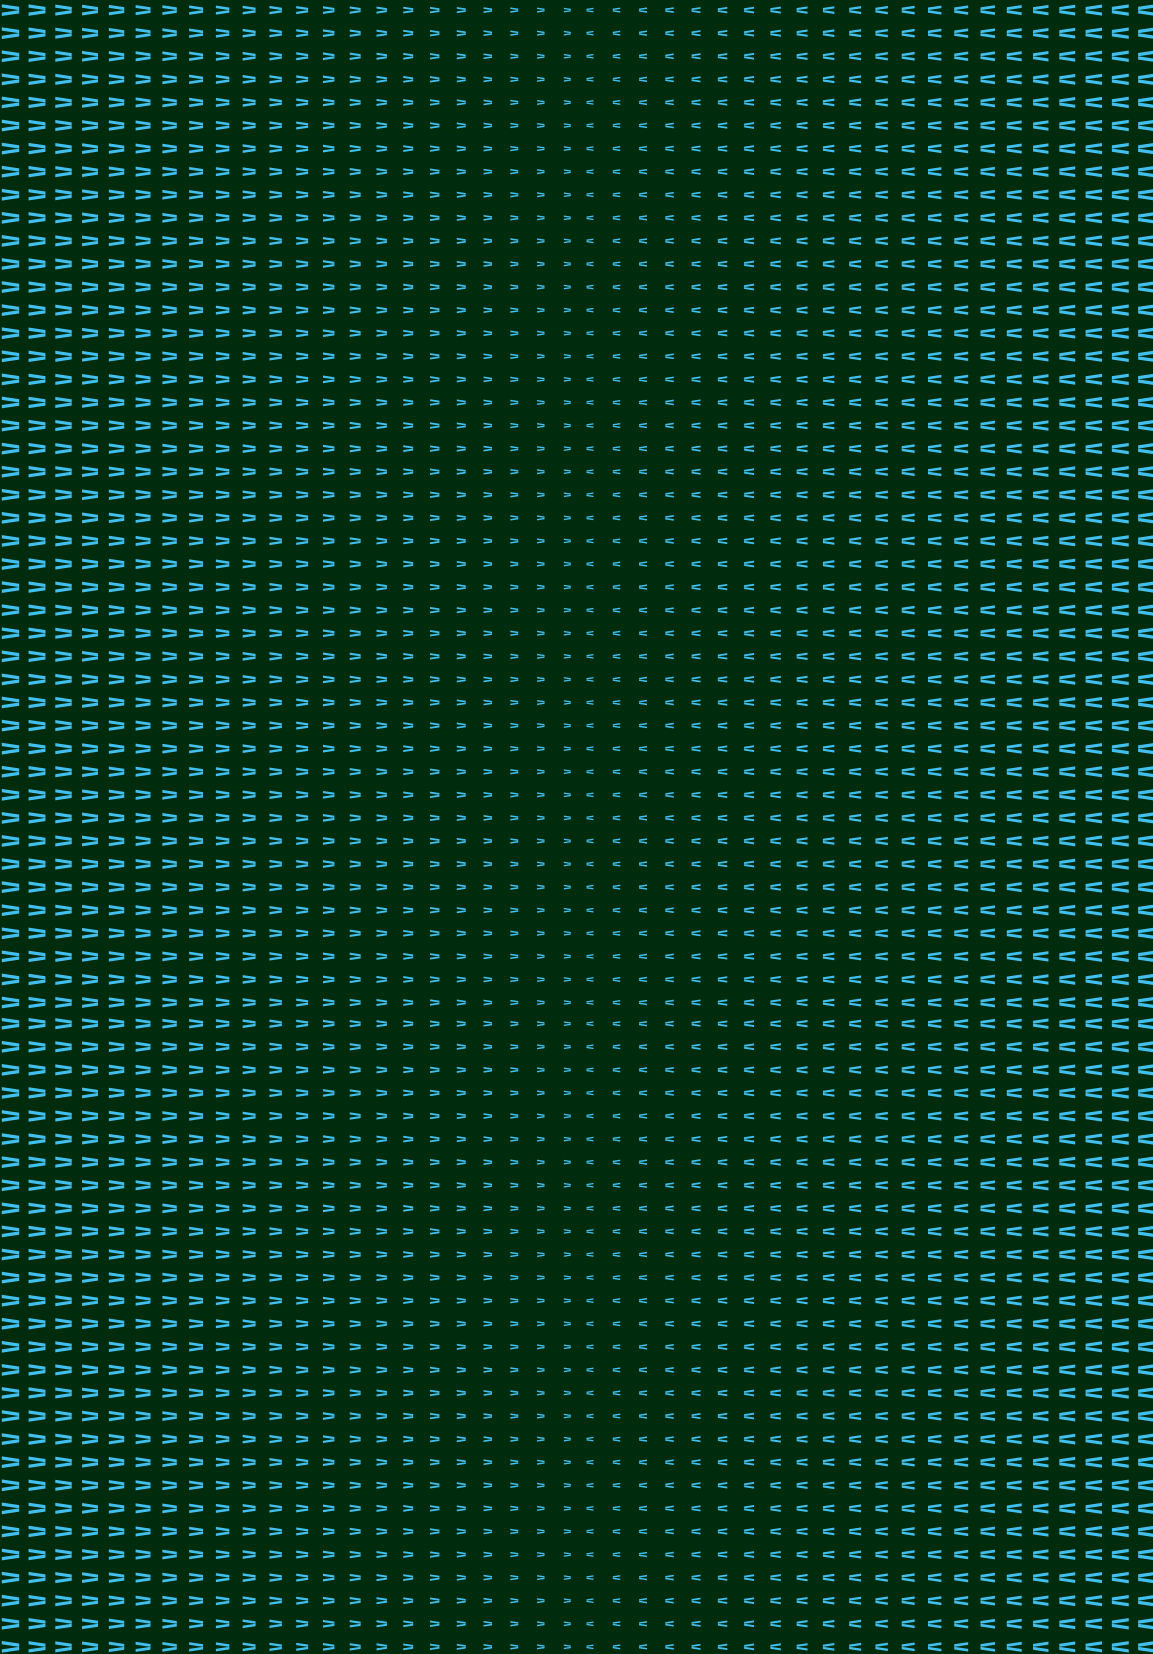

Committed to the highest security and data protection principles.

ECOVADIS

EcoVadis has ranked Salto Systems in the top 25% of companies with the best performance in terms of sustainability policies.

BSI Kitemark™

This cyber/physical security scheme forms the security element of the BSI Kitemark for IoT/Connected products.

Hospitality Solutions

Enhance your guest experience with Salto, the global leader in Hospitality access control. Our wireless, smart access ecosystem solutions gives you ultimate control and blends seamlessly with your hotel design and style.

Our solutions for Hospitality

Modern, easy frictionless guest smart access

With an impressive list of trusted, best-in-class hotel clients from all over the globe, Salto delivers industry-leading electronic locking hospitality solutions.

Salto has developed advanced and aesthetically designed hospitality-specific smart access solutions ecosystem that set a new standard in the industry, — from access control, to mobile access, ID visitor management, face recognition, door intercom, energy efficiency & control and smart locker systems — with one easy-to-use system for hotels of all types and sizes.

As access control solutions for the hotel industry evolve, Salto continues to lead the way as the most innovative and technologically-advanced provider. We create pioneering systems that ensure maximum security, reliability, efficiency, and convenience, while adhering to the highest design standards that provide contemporary visual appeal. Guests, families, and visitors will enjoy enhanced experiences and you gain lasting value from your investment.

Salto helps you meet customers' rising expectations, differentiate, and elevate your guest experience.

More than just a guestroom lock— a guest experience

Salto access solutions deliver a comprehensive platform that's designed for your specific hospitality needs.

Our unique, advanced hotel smart access ecosystem solutions redefines guest experiences with effortless, safe entry. Its cutting-edge design ensures unparalleled convenience and robust protection, elevating the modern hospitality standard. While compatible with third-party technology, its primary focus remains on delivering seamless, high-quality access for an exceptional stay.

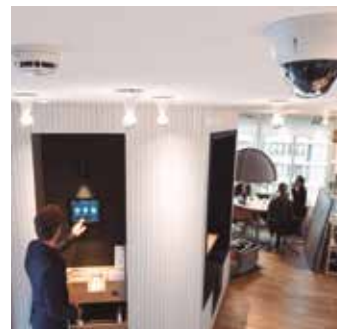

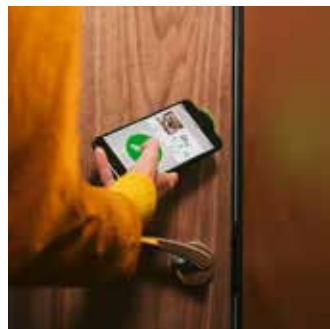

Smart access solutions

Provide the modern, easy access option guests are increasingly coming to expect with the use of digital keys or key cards, which offer convenient, secure, and instant access.

Elevate the Guest Experience

Salto's smart and cutting-edge access control technology gives you the power to elevate the guest experience.

Streamline Hotel Operations

Salto's technologically-advanced access control can simplify and automate hospitality operations from back of house to the front desk.

Unique Design

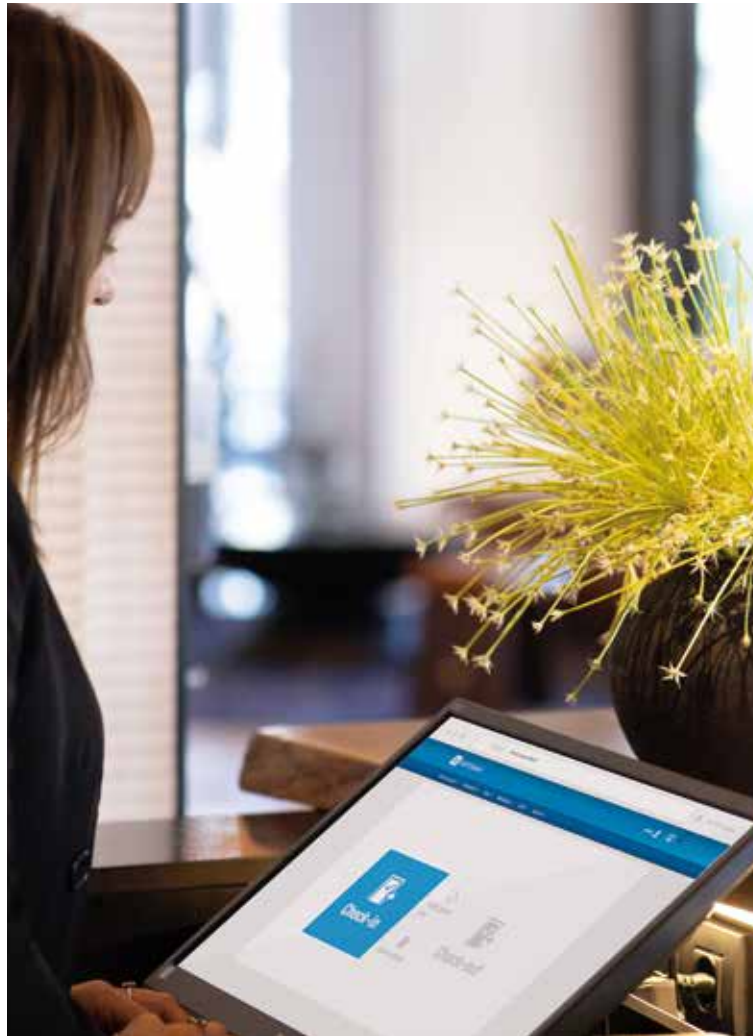

Unique, simple-to-install designs with fully-customizable options that complement the style of your property.

Safety and Security

Improved security, with greater automation and process optimisation, from the guestroom to the back-of-house, saving countless staff hours per week.

Technology Partners

Integrated with in-room, check-in, PMS, guest apps, and complete building management systems.

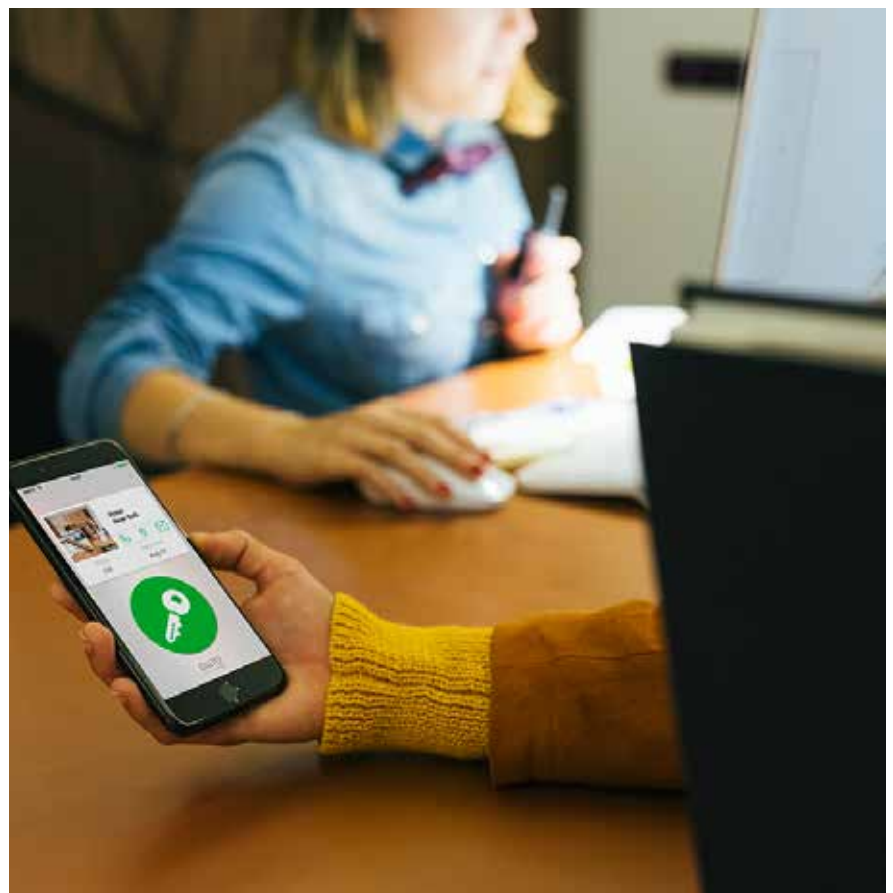

Our solutions for Hospitality

Smart access solutions

Provide the modern, easy access option guests are increasingly coming to expect with the use of digital keys or key cards, which offer convenient, secure, and instant access.

Salto Hospitality's integrated access control system is a single point of entry for guests across all types of accommodation, including boutique hotels, resorts, hostels, B&Bs, lodges, and large hotel groups. It allows guests to use their room key at any door throughout the property, from their rooms to perimeter or facility access and hotel amenities.

Our solutions for Hospitality

Elevate the Guest Experience

Salto's smart, cutting-edge access control technology empowers you to elevate the guest experience. Seamlessly integrate with existing management tools to simplify operations and enhance security, delivering modernized hotel management and unparalleled service.

Smart-hotel convenience

Provide the modern, easy access option guests increasingly expect with digital keys or keycards giving convenient, instant, and safe access.

Seamless experience

Extend smart access beyond the guestroom across your property. Provide seamless access to entrances, perimeter access doors, elevators, gyms, business areas, parking, and more.

Exceed expectations

Exceed guest expectations by integrating Salto access with other property systems like room booking and restaurants. Create value-added opportunities for your product offerings while realising operational efficiencies.

Our solutions for Hospitality

Streamline Hotel Operations

Salto's technologically-advanced access control simplifies and automates hospitality operations from back of house to front desk, seamlessly integrating with existing management tools. Modernize hotel operations and deliver unparalleled guest services by incorporating the most advanced security and access management solution on the market.

Industry-specific solutions

Purpose built, industry-specific advanced software and platform. Their proven functionality is already the choice of 15,000+ hospitality businesses worldwide.

Cost-saving efficiencies

Improve workflows and processes across the business — reservations, front desk, maintenance, security management, housekeeping, sales, and marketing.

Automated daily functions & personalization

Simplify and automate hotel management processes and free up staff to spend more time interacting with guests for a more personalised experience.

Greater flexibility

Salto solutions integrate with CCTV, fire alarm, time and attendance, and other systems to provide total security management from one central platform.

Our solutions for Hospitality

Design & Style

Enhance your property's brand and style with Salto's sleek design, crafted from quality materials to the highest standards. Salto's wide range of product options complements and enhances your brand throughout the property, making a bold statement with unmatched craftsmanship.

The perfect finish

Stylish, functional Salto access solutions help ensure your overall design effect is maintained down to the smallest detail, which enriches the guest experience.

Style with security

Salto hospitality solutions combine style and technology to deliver reliable, flexible, and secure access control.

Extensive choice

Choose from a wide range of finishes, door handles, and locks from world-leading designers to complement your property's image. Customize your selections to meet your specific needs.

Simple to install and maintain

Easy to install, reliable, and low maintenance. A global network of trained and certified installers ensures support is always available.

Our solutions for Hospitality

Security & Safety

Salto's advanced access control simplifies and automates hospitality operations from back of house to front desk, seamlessly integrating with existing management tools. Modernize hotel operations and deliver unparalleled guest services by incorporating the most advanced security and access management solution on the market.

Peace of mind

Salto provides security reassurance for everyone on site while protecting assets and equipment.

Monitoring

Salto provides data on real-world guest and staff movement patterns, providing valuable intelligence to drive smarter security protocols and improve overall access flow.

Intelligent control

Locking modes adjustable by admin rights, room, and door status monitoring gives full control of who can access what, when, and where and provides real-time audit trails to help managers identify security risks.

Easily add safety integrations

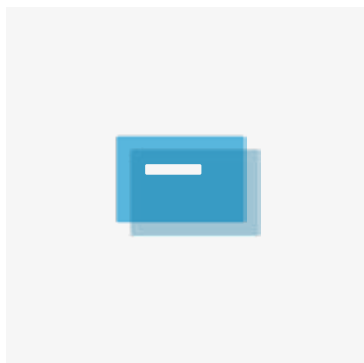

Salto solutions integrate with CCTV, fire alarm, time and attendance, and other systems to provide total security management from one central platform.

Our solutions for hospitality

HIW

Speeding up check-in and simplifying hotel management.

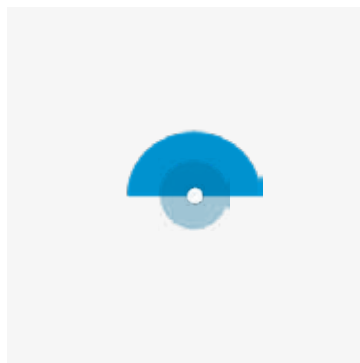

Salto has developed specific hospitality add-ons that allow hotels to easily control and manage guest access needs with one wire-free and easy-to-use system. Salto is perfect for all hotel sizes and types and helps deliver an optimal guest experience as well as the best utilization of a hotel's infrastructure: guestrooms, suites, meeting spaces, and more.

SVN Data-on-Card

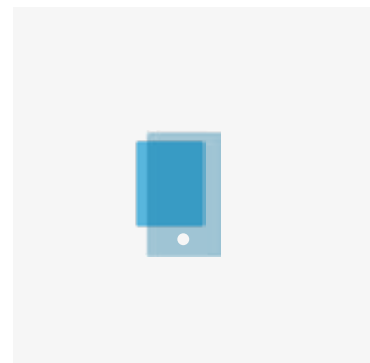

Designed for use in hotels, SVN data-on-card enables guests and staff to work in a wire-free environment so there is no need to hard wire. Salto offers a mobile and smart card-based system that permits the lock and the guest key to communicate via SVN.

Salto delivers standalone, virtually networked, wired, and wireless smart locks — all working within a single access control technology platform designed specifically for hospitality.

BLUEnet Wireless

The advanced Salto BLUEnet online wireless solution is the next step in wire-free access control. Salto BLUEnet Wireless brings real-time, two-way encrypted communication between our wireless locks and the operator.

JustIN Mobile

Salto JustIN Mobile uses the latest in technology to communicate securely via the cloud and enables hotel guests to receive their room key online, anytime and anywhere.

The JustIN Mobile app is completely secure as keys cannot be duplicated, unlike mechanical keys or some low-security RFID technologies. The encrypted data transfer uses SSL (Secure Socket Layer) AES 128-bit encryption opening procedures to ensure secure transmission.

01 Check-in

Speeding up check-in and simplifying hotel staff management

02 Front Desk

Web-based software with a user-centered interface that is simple and secure to use.

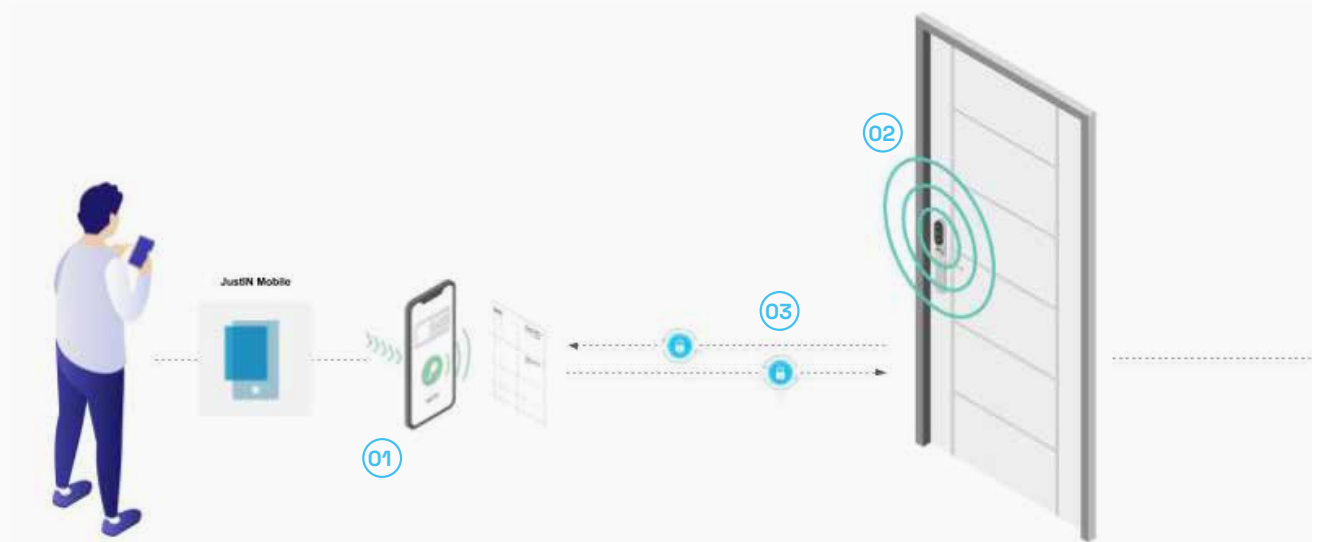

- Mobile guest keys (BLE/ NFC)
- Group check-in
- Real-time re-rooming
- Real-time extended stay
- ...

03 Digital Key

Advanced mobile key management combined with physical keycards

04 Lift Access - Parking Access

Integrated into the lift management panels. Increase the security of your hotel, with the lift access control, the guest can only access where you have granted him permissions.

01 Guest Room Access

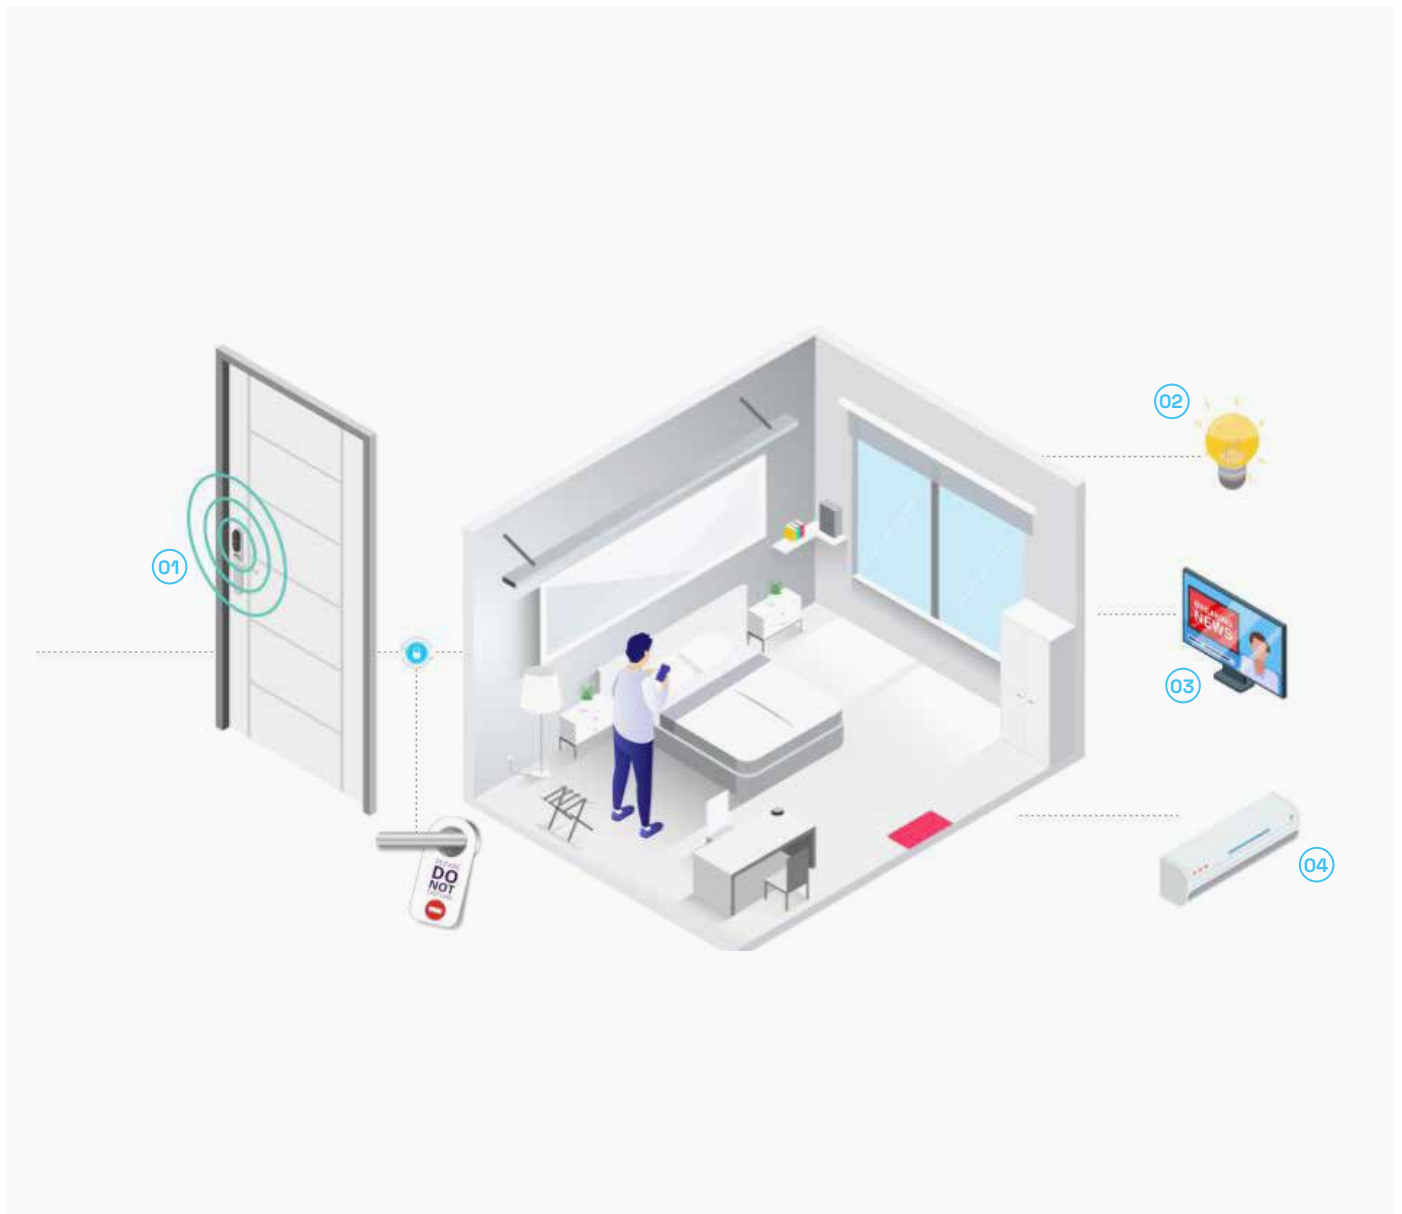

Designed for use in hotels, Salto Hospitality lockling solutions enables guest and staff to work in a wire-free environment so there is no need to hard wire.

02 Guest Key transmits to door lock

- Deleted cards list
- User / guest access rights

03 Electronic lock transmits to guest key:

Digital welcome message for your guests.

01 Guest Room Access

- Room status monitoring
- Instant extended stay
- Instant room change (re-rooming)

02 Light

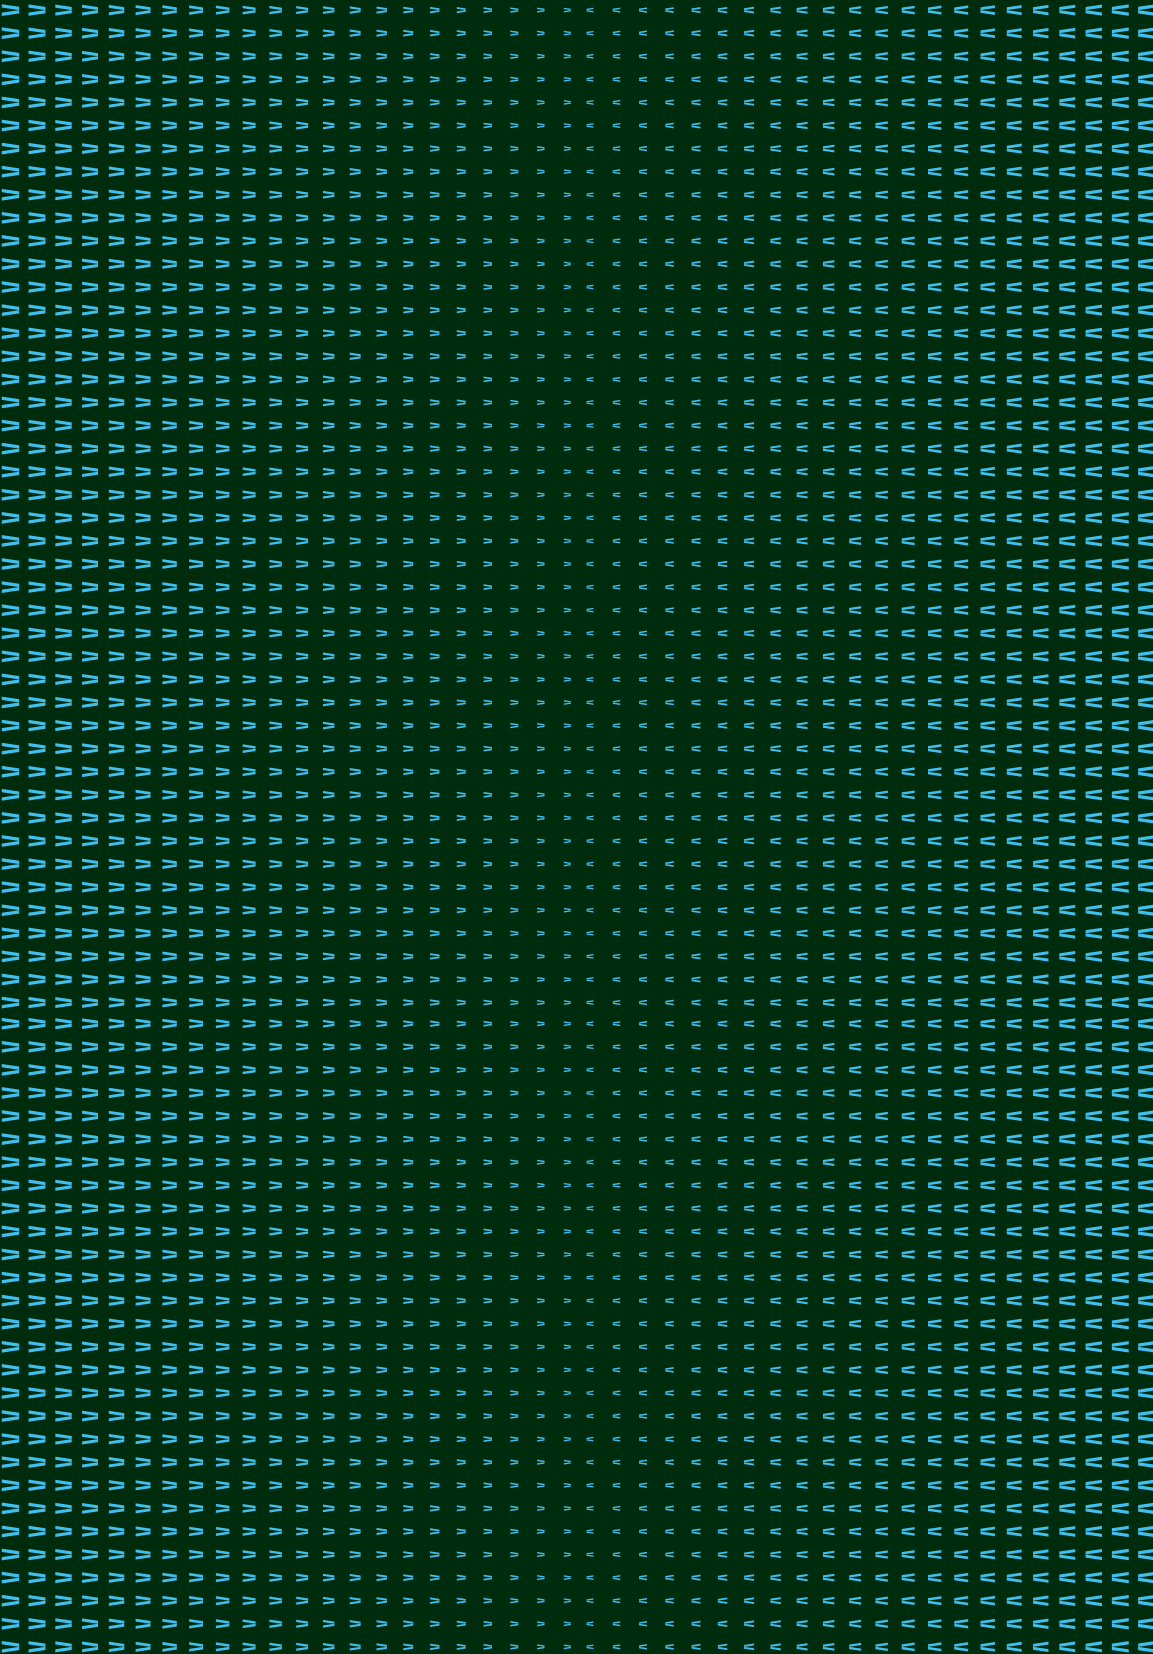

Automatic nightlights and entry welcome lights.

03 TV

Digital welcome message for your guests.

04 Clima Control

Meet guest expectations by providing the right temperature that are environmental friendly and energy saving.

Hotel Management Software

Software

Enhance your guest experience and streamline hotel operations with Salto. Our user-centered, web-based management software gives you ultimate control and blends seamlessly with hotel operations.

When guests arrive at a hotel, they want a quick check-in to maximize their time. Every step, from issuing a card to accessing their room or amenities, must work flawlessly. Salto has developed add-ons for the hospitality market that allow hotels to control all access and guest management needs with one system. Salto ProAccess Space software includes mobile guest keys, group check-in, real-time re-rooming, and extended stay features, all manageable from a central location.

All-in-one web-based Hotel Access Management Platform

100% browser-based access control software, revolutionizing the way you manage and protect your hotel property.

Customizable and highly secured

Experience the freedom to tailor your system while ensuring the utmost protection for your hotel property and guests. Robust security protocols, multi-factor authentication, and regular system updates.

Real-time monitoring and advance hotel management features

Gain unparalleled visibility and control over guest room events, check-in as well as the ability to effectively make changes, provide re-rooming or extended stay to guests.

Accelerate check-in process and manage access levels

Configure access levels, permissions, and guest and staff roles according to specific requirements, allowing you to easily create, modify, and delete user permission based on changing needs or circumstances.

Group check-in

Automate and accelerate the group check-in process. Allow people travelling together to check-in at once and simultaneously, avoiding long waits to start their stay/holiday.

Front-office Operations

ProAccess Space web-based Hotel management software allows hotel management to streamline front-desk workflows and processes: faster check-in, dynamic staff access control, automatic key renewals, and key cancellation. Also includes advanced features like multiple wandering intruder detections and improved audit trail filtering/reports.

Re-Rooming & Extended stay

Guests can easily request an extension with a smartphone and without the hassle of visiting the front desk. When the request has been approved, they'll be immediately and conveniently notified of their new stay details.

Monitoring

Locking modes — adjustable by admin rights, guestroom, and door status monitoring — give full control of who can access what, when, and where, and provide real time audit trails to help managers identify security risks.

Mobile access

Deliver a digital and connected experience to your guests by allowing them to check-in/check-out, make changes to a stay, and access any facility in seconds — all from their smartphone.

Compatibility & Integration

Salto hospitality solutions integrate with other technology partners, allowing operations to combine and incorporate third-party services that increase both efficiency and security. By working with Property Management Systems (PMS), Room Management Systems (RMS), check-in solutions, elevators, or complete Building Management Systems (BMS/BAS).

Dynamic staff key management

Instantly extend, modify, or revoke access by updating your smart lock's deny-list and cancelling a staff mobile key/smart credential. Set automatic key renewals and/or cancellations. Get real-time insight into staff daily operations by tracking attendance and movement across the property.

Flexibility

ProAccess SPACE for hospitality was designed to be deployed and used in any type of hotel — from those that need to control a small number of rooms, up to the largest resort-based properties with thousands of rooms. Our management software is also ready to be run on different front desk workstations simultaneously.

Our products for Hospitality

Smart Credentials and Digital Keys

Salto supports a wide range of access control methods to create the perfect fit for any hotel property.

Deliver a digital and connected experience to your guests by allowing them to check-in/check-out, make changes to a stay, and access any facility in seconds

Digital Key

Transform Hotel guest experiences with digital keys and mobile access technology.

Guest Key

At Salto, we are fully compatible with different credentials technologies. Our hardware and software platforms support a range of credentials, from smart keycards, BLE mobile access to NFC wallet-based and web-keys solutions, ensuring flexibility for you and your guests.

Staff Key

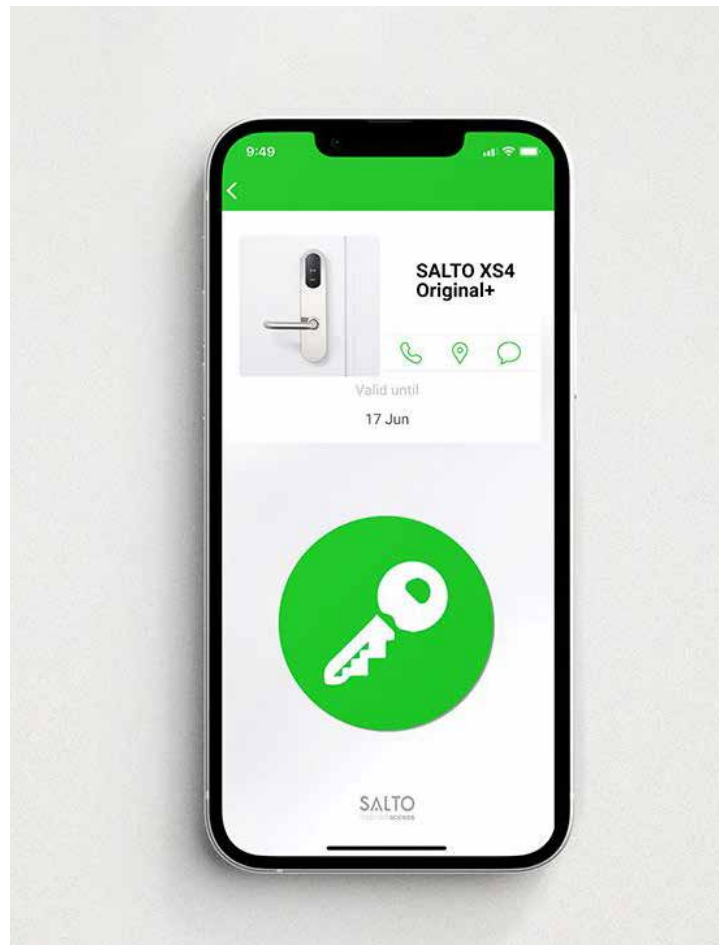

Instantly extend, modify, or revoke access by updating your smart lock's deny-list and cancelling a staff digital key/ smart credential.

PIN Code

Provide easy access for your guests and staff effortlessly with PIN code for access to a room common areas.

Digital Key

By combining technology and design, the Salto electronic locking platform leverages industry-leading security practices, including advanced encryption, to provide users a secure and seamless keyless and mobile experience for guests and staff.

Simple and safe

It's the most secure form of guestroom access. Provide guests with a hotel experience they value and want to repeat by facilitating their check-in without sacrificing their security and comfort.

Contactless from end to end

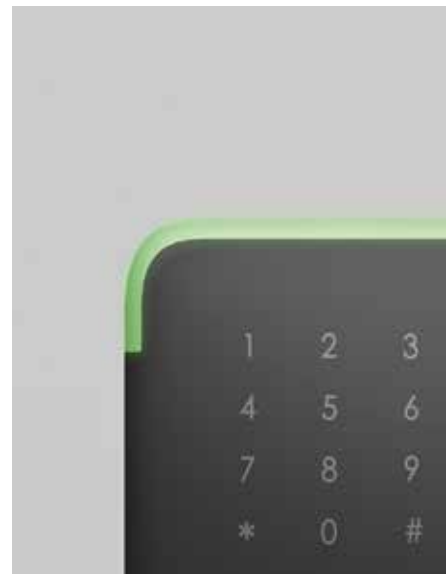

Give guests the power to bypass the front desk and go straight to the guestroom. Salto combines mobile check in with secure digital key delivery right to a smartphone.

Minimize lost key expenses

Replacing lost keys takes time and is a hassle. Eliminate this costly headache with digital key delivery and improve sustainability efforts at the same time by reducing plastic keycard usage.

JustIN Mobile SDK

Salto makes it easy to incorporate smartphones into any access control solution via software development kits (SDK) for both iOS and Android platforms and the Salto JustIN mobile access application.

Guest Key

Salto offers the same level of security and convenience for guests that require or prefer a keycard. Custom branded keycard designs with your property logo and information are available.

Staff Key

Provide staff with a variety of options for credentials including keycards, fobs, or a digital key for a smartphone. Issue or revoke credentials from anywhere and at any time.

PIN Code

Provide easy access for guests or staff effortlessly with a PIN code or with a mobile entry.

Sustainable guest keyCards:

Made to the same thickness as an existing keycard or event pass, environmentally friendlier card looks and feels the same as a plastic card.

Zero Plastic

Made entirely from recycled FSC-certified paper or wood.

Biodegradable cards.

The quality, dimensional size, and durability are so similar to its plastic carrier, our paper-based guest keycards are an excellent option for hospitality.

Fully Compatible

Salto guest keycards have an embedded in it a top-quality NXP Mifare Ultralight® C RFID chip that is fully compatible with Salto smart locks.

Custom options

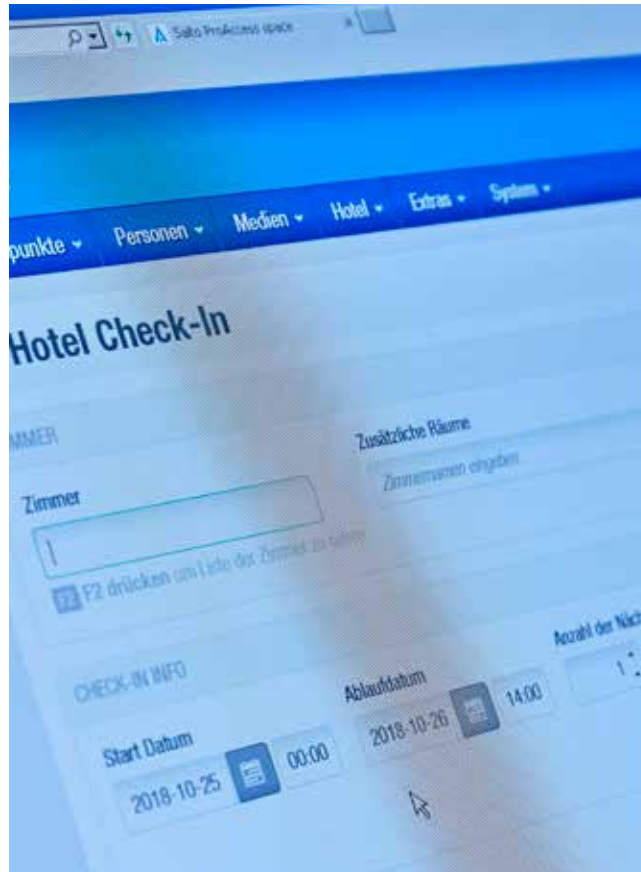

Wooden key cards are available in three manufacturing materials: bamboo, cherry, and black walnut. Paper keycards can be branded with a logo, if desired.

Integrations

Technology Alliances

Whether you seek guest apps, PMS, room management systems, check-in solutions, or complete building management systems solutions, you'll find them by connecting to the Salto hospitality technology partner network.

Technology Partners

The Salto Technology Partner program empowers best-in-class technology companies to link into Salto's smart access solutions

Integrations and Connectivity

Integrated with in-room, check-in, PMS, guest apps and complete building management systems.

PMS Integration, Mobile access Partners, GRMS solutions....

Every hotel has unique operational needs. That's why we offer full integration with your operations with a range of additional integrations to enhance your property's functionality.

Guest APPs

Salto and our partner network of leading mobile app service providers work together to provide a superior guest experience to clients, whether by offering mobile functionalities or superior management standards.

- Direct bookings
- Check-ins and check-outs
- Guest loyalty programs
- Mobile access

PMS

Salto solutions integrate seamlessly with a variety of hospitality Property Management Solutions (PMS). By integrating with hospitality PMS providers, Salto helps improve property and operations management.

- Front desk operations
- Online reservations
- Accounts receivable
- Key issuing or guest check-in

Check-in Solutions

Checking in and out of hotels will never be the same again! Significant innovations and progress mean guests can choose how and when they check-in or out, thanks to the support and expertise of Salto hospitality's key partners.

Kiosk check-in
Payment systems
Tablet check-in
Mobile access / Guest key issuing

GRMS — Room Management Systems

Room Management Systems (RMS) are automated software and hardware applications that serve to control the various aspects of a guestroom. Salto has created key partnerships in this field and incorporates the latest RMS technology with the most comprehensive wire-free access control system.

Energy efficiency/Energy saving systems
Guest presence
Remote diagnosis of room equipment
IPTV

Building Management Systems

For the complete control of a property, a flexible and truly integrated framework must first be put into place. BMS combines all functions of a hotel property system into an automated network, grouping security aspects such as time and attendance systems or CCTV video-surveillance.

CCTV Video-surveillance
Time and attendance systems
Intrusion detection alarms
Perimeter security

Design Tool

MyLock

The Salto MyLock online tool can help you visualize a variety of finishes, handles, and locks for your next electronic access project.

Salto products aren't just smart on the inside, they are beautiful on the outside. We make a variety of finishes available that match any decor and style.

Visualize your next project! The Salto MyLock configurator lets specifiers, architects, partners, and end users design and choose locks and products to see how they will look on different door types and styles.

MyLock

Build your own door

Customize your electronic hotel door lock

With the Salto MyLock online configuration tool, you can select an electronic lock model and door type and customise your selection with a range of colours, finishes, and handle options.

The innovative MyLock tool provides complete visualisation and customisation, giving users the power to envision, and properly plan, future projects.

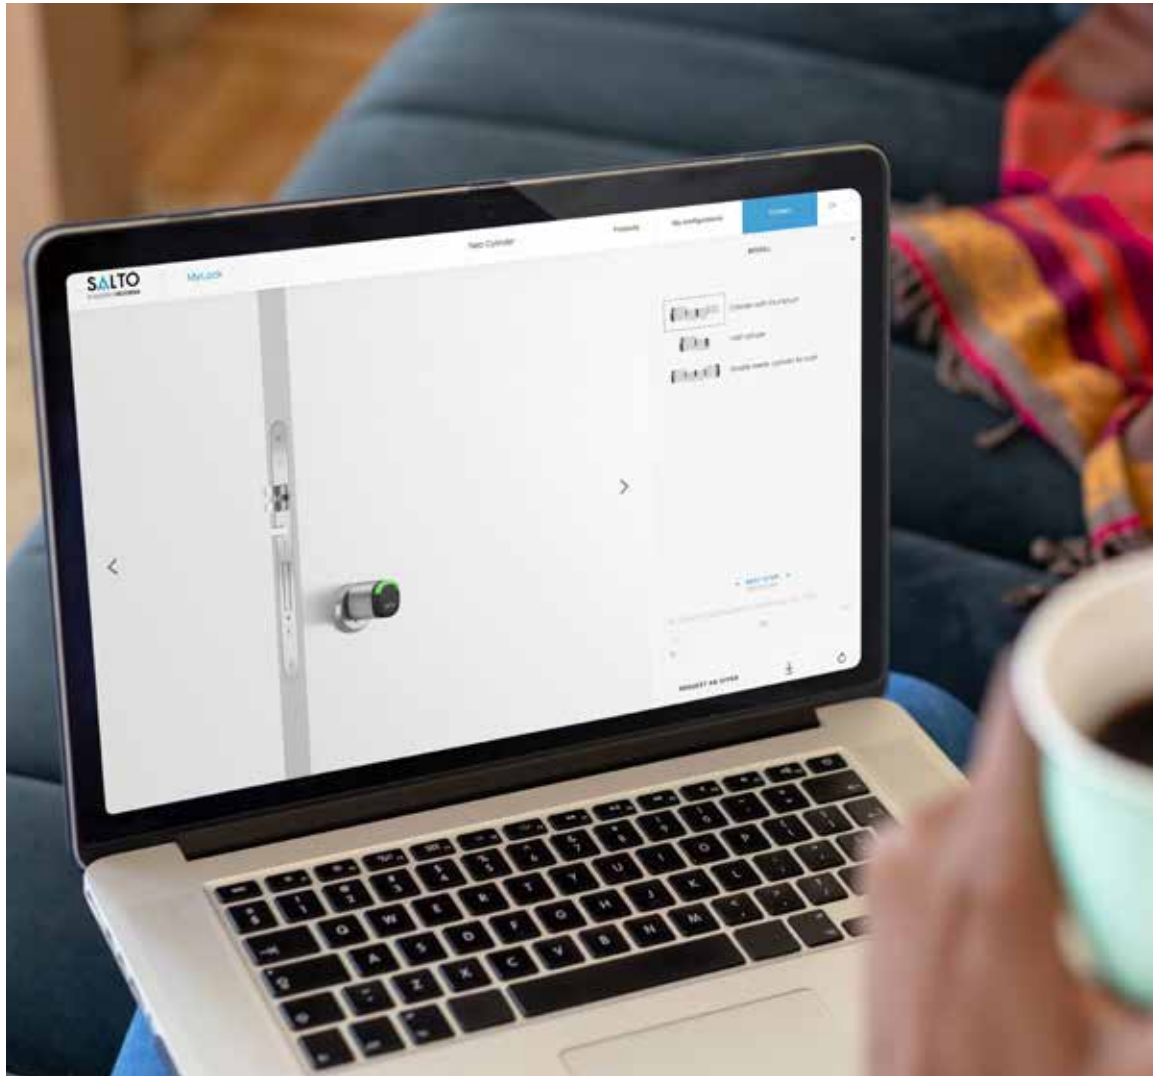

Choose your electronic hotel lock model

Choose your favorite electronic hotel lock model (ANSI, Euro, or Scandinavian standards) and personalise everything. The MyLock configuration tool is great for planning new projects or retrofits for existing doors: you don't have to drill or wire to create a customised door!

Choose your door type and select a handle design

Choose a door type, finish, handle design, and lockset finish that matches your guestroom door.

Download and save your settings

Once the door configuration is complete, you can store and compare it against previously-configured door lock models or save it as a PDF.

Colombo by Salto

Door handle design options

With the objective of always offering more to its customers, SALTO has teamed up with one of Italy's leading handle designers, Colombo Design. The new collaboration will enable SALTO to provide an even more comprehensive selection of unique handle options to customers, supplementing those already available from the in-house SALTO handle range.

Colombo will make its best designs available for customers to choose from a high quality selection suitable for both SALTO XS4 and AElement electronic locks range, and compatible with both ANSI standard and DIN EU door standards.

Standard Line

Salto's Standard Line provides minimalistic and simple handles, fitting any style while offering robustness and comfort. The linear shapes make these handles multifunctional and easy to implement in any environment. Manufactured by Salto, these handles (which are available in six finishes) strike a great balance between function and efficiency.

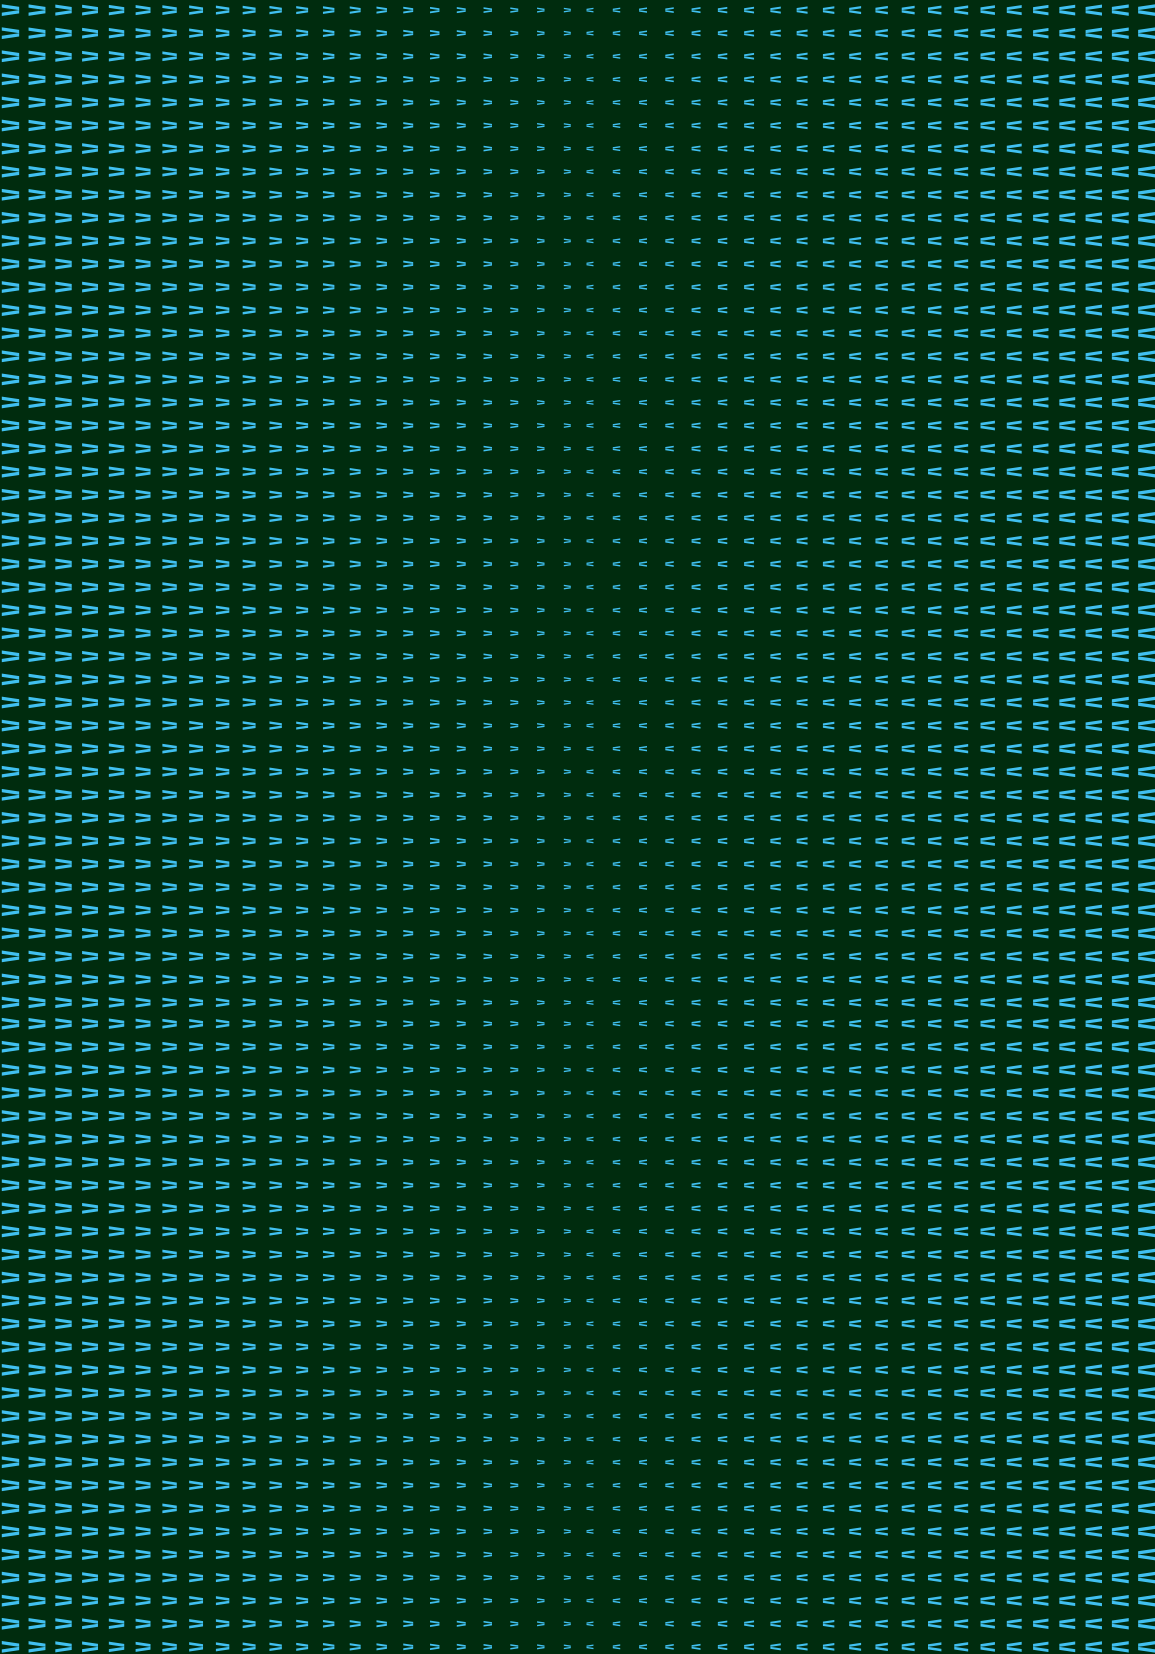

Premium Line

Salto's Premium Line offers a selection of refined handles with a modern and stylish design. Made of superior quality materials, this distinctive line complements the appearance and aesthetic of your hotel. The Premium line of handles is available in six different finishes.

Luxury Line

The Luxury Line includes a range of high-quality handles designed by our partner, Colombo Design. This quality Italian manufacturer selected its best designs to offer the finest combination with Salto's locking solutions. Colombo's perfect finishes and neat appearance blend nicely into delicate surroundings, embellishing even the most sophisticated of places. The Luxury line is available in six finishes.

Why Salto Hospitality?

Technology is at the core of all Salto access solutions. Our commitment to research and development shows in our electronic lock hardware, our software management solutions, and our integrations with other leading technology partners.

Why Salto Hospitality?

Guest

Improve the guest experience by offering mobile access that's managed with a smartphone. Electronic access that allows guests to bypass the front desk and go directly to a guestroom adds convenience and sophistication.

Front-desk operator

Salto electronic access solutions are easy to manage and result in more efficient operations. By giving guests the ultimate in control with digital keys and mobile access to guestrooms, and even self check-in kiosks, you can free up front desk staff to tend to other tasks.

Visitors

Integrate Salto access solutions with hospitality departments like housekeeping to ensure your operations run smoothly. Provide access by the door, hall, floor, or building. Integrate with room systems like heating and air conditioning or lighting to ensure these systems function only when housekeeping or guests are in the room in order to save on expensive energy costs.

Housekeeping

Integrate Salto access solutions with hospitality departments like housekeeping to ensure your operations run smoothly. Provide access by the door, hall, floor, or building. Integrate with room systems like heating and air conditioning or lighting to ensure these systems function only when housekeeping or guests are in the room in order to save on expensive energy costs.

Maintenance

Whether it's scheduled maintenance or an emergency, Salto can help hospitality operations manage access to guestrooms to ensure that maintenance workers have the access they need to get the job done.

Facts

Pioneering facility access, identity management and electronic locking technology that ensures seamless, reliable and secure experiences.

We develop pioneering facility access, identity management and electronic locking technology that ensures seamless, reliable and secure experiences.

Through close customer relationships and innovative solutions, our global team of experts create timeless and meaningful products that positively impact people and planet.

vintia **V**

Vintia elevates ticketing and booking experiences for the leisure and attractions industry through innovative solutions.

We develop scalable and comprehensive ticketing, booking, management and payment solutions that increases operational efficiency, security and revenue by optimising customer experiences.

Through seamless integration, 24/7 customer service and market leading software applications, we're committed to simplifying the entire visitor and sales journey.

SALTO WECOSYSTEM

Innovating for a more sustainable future

Climate change and social challenges requires swift, collective action and technological innovation. We are committed to build a more sustainable future, harnessing the power of technology and people.

We are committed to protecting the planet, by focusing on recycled and renewable materials, clean electricity, and low-carbon shipping to bring our net emissions to zero across our entire carbon footprint.

We aspire to create more diverse, inclusive, and equitable communities. Rooted in driving change and supporting change-makers, SALTO FOUNDATION aims to empower disadvantaged communities by using sports as a catalyst for change.

Our WeConnectors

Creates a set of shared values that bring our SALTO WECOSYSTEM community together through behaviours.

Proximity to people

We go further to understand how we can improve people's daily lives with smarter access solutions.

Passion for innovation

We exceed expectations. Our shared passion drives us to go beyond the status quo.

Connection to each other

We work as a one team. Together, we create solutions that benefit people and planet.

Agility in thinking

We empower out of the box thinking. By embracing new challenges openly, we inspire inventive solutions.

Integrity in every step

We are uncompromising. Our commitment to creating positive impact pushes us to work with honesty and efficiency.
